

TENT SIZE GUIDE

Tent sizing depends on much more than guest count. Use this guide as a starting point when estimating the space needed for your event.

WHAT NEEDS TO FIT UNDER YOUR TENT?

• Dining tables and chairs • Cocktail tables • Dance floor • Bars • Buffet stations • Catering and service areas • Staging	• DJ or band equipment • Lounge furniture • Cake or display tables • Service aisles • Entrances and exits • Guest circulation
--	--

WHY LAYOUT MATTERS

Two events with the same guest count may require very different tent sizes depending on the event layout and services included.

GENERAL PLANNING SPACE

EVENT STYLE	STARTING POINT	PLANNING NOTE
SEATED DINNER	10-12 sq. ft. per guest	Standard banquet seating. Add space for bars, buffets, dance floors, stages and service areas.
COCKTAIL-STYLE EVENT	6-8 sq. ft. per guest	Varies based on furniture, bars and service equipment included.
CEREMONY SEATING	6-8 sq. ft. per guest	Add space for aisles, entrances and the ceremony area.

DANCE FLOORS, STAGES & ENTERTAINMENT

Dance floors, stages, DJs, bands and entertainment areas require additional square footage and should be calculated separately from dining or cocktail seating.

IMPORTANT

Tent-size recommendations are preliminary planning guidelines only. Final tent sizing should be based on the actual event layout, site dimensions and installation conditions.

For more complex events, our team may recommend a site plan or site inspection before finalizing the tent size.

NEED HELP CHOOSING A TENT SIZE?

Our team can help determine the appropriate tent size based on your guest count, event layout and site conditions. **Call 305-969-1025.**
