

DANCE FLOOR SIZE GUIDE

Not every guest will be on the dance floor at the same time. For most weddings and social events, planning for approximately **30-40% of guests dancing at one time** provides a useful starting point.

THE RIGHT SIZE DEPENDS ON YOUR EVENT

Event style, guest demographics, entertainment and how important dancing is to your celebration can all affect the ideal dance floor size.

GENERAL RECOMMENDATIONS

GUEST COUNT	APPROXIMATE DANCE FLOOR SIZE
Up to 50 Guests	12' x 12'
50-75 Guests	12' x 15'
75-100 Guests	15' x 15'
100-150 Guests	15' x 18' to 18' x 18'
150-200 Guests	18' x 21' to 21' x 21'
200+ Guests	Contact Our Team

WHEN TO SIZE UP

If dancing is expected to be a major focus of the event, consider selecting a larger dance floor. A high-energy wedding, live band or dance-focused celebration may need more space than an event where dancing is secondary.

IMPORTANT

These sizes are general planning recommendations. The final dance floor size should also consider your available event space, guest count, table layout, stage or DJ placement and overall event flow.
