

Propane Griddle

Please review these instructions before operating the equipment.

BEFORE YOU BEGIN Griddle • Propane tank • Regulator valves • Cooking surface

1 SETUP & USE

1. Make sure all regulator valves are in the OFF position.
2. Securely connect the propane tank and open the tank valve.
3. Carefully light the pilot/burner system according to the instructions provided with the unit.
4. Adjust the controls to the desired cooking temperature.

2 AFTER USE & RETURN

- Turn all controls off.
- Close the propane tank valve.
- Allow the griddle to cool completely.
- Remove all food and excessive grease before pickup.

HAVING A PROBLEM? CALL US RIGHT AWAY: 305-969-1025

Stop using the equipment and contact Christina's Party Rentals as soon as an issue is discovered.
We can assist by phone or, when appropriate and available, dispatch a technician to your event.

Service calls are subject to availability, location and timing. If a technician is dispatched and the equipment is found to be operating properly and the issue is determined to be user error, additional service fees may apply.
